RULES

The object of this game is to get all your four tokens into your home goal triangle from your part of the FEST. You do this by placing your token on your

Select which FEST area you want to play from then place your coloured tokens on the three squares and one token on the starting square.

start square (If you roll a six and a one both tokens can be placed on the start square) or you can either move a new token onto the start square and

If you roll two of the same number it qualifies for another turn. If for any reason you can't move your token then you must end your turn.

one of your own tokens then a blockade can take place. This means that no tokens can pass this point. No blockade can happen on an activity square.
